

**NATIONAL POLICY FORUM ON
WAGES AND PRODUCTIVITY
Manila, 28 October 2009**

**Partner (TUCP) Response
to Productivity Presentation**

Presented by
FLORENCIA P. CABATINGAN
TUCP Women's Chair

The NCC programs are elitist.
They ignore labor.
They ignore the private sector's
so-called partners.

The programs are so elitist
NCC actually believes these programs
would prosper
without the participation of labor.

The programs even ignore DOLE.
The only reference to DOLE on Frame
No. 13 is a misprint.

“Government ENABLES. Business DRIVES and goes for GROWTH”.

Where is labor? Labor LOOKS ON?

This is so strange,
as these employers and private sector people
spew at every opportunity
that productivity and people
are the Philippines' most important resource.

That is what is wrong
with the country's productivity and
competitiveness programs.
Only the elite are privileged to participate.
In designing and deciding programs
and in the sharing of gains.

Or perhaps we were expecting too much.
That we were made to believe that labor
really was important
in the country's competitiveness.
Our mistake.

Also the Philippines' mistake.

As each bird flaps its wings, it creates uplift for the bird following.

In a V formation, the whole flock adds at least 71% more flying range than if each bird flew alone.

To NCC, labor is not even a flapping bird.
The NCC flock excludes labor.

Well, it would be the Philippines' doom.
Labor will be NCC flock's burden.

Good luck to your labor-less competitiveness.
You will need it!
